

Who is Barack Obama and where did he come from?

HIS FATHER / HIS CHILDHOOD

Barack Hussein Obama (1936–1982) was the father of Illinois Senator and 2008 Democratic presidential nominee Barack Obama. He left the family when young Barack was two years old, and they only saw each other one more time, eight years later, when the son was age 10. He is the main subject of his son's memoir, *[Dreams From My Father](#)*. Born and raised in Kenya, the elder Obama was educated in the United States, after which he returned to Kenya and served as a senior economist for the government. He died at age 46, from injuries received in an automobile accident. http://en.wikipedia.org/wiki/Barack_Obama_Sr.

Sayid Obama, the brother of Barack Obama Sr., said their father had livestock, including goats and cows, and that the sons in the family, including Obama Senior, worked to take care of the livestock, confirming a detail Obama related about his father. Working as a goatherd does not mean the family was poverty-stricken or otherwise disadvantaged in their tribal home, a misimpression that could easily be derived from reading Barack Junior's autobiography. Obama Senior's father was a tribal elder from a prominent and wealthy family in the village where they lived, Nyangoma-Kogelo, in the Siaya District in southwestern Kenya. Moreover, Obama Junior's tribal grandfather had considerable influence with the African leaders at the national level who were pushing for independence from British colonial rule.

Barack's father was a privileged, well educated youth, who went on to work with the Kenyan Government. http://en.wikipedia.org/wiki/Barack_Obama_Sr.

MUSLIM BACKGROUND?

Obama (then called “Barry”) spent most of his formative years in Hawaii, raised by his grandparents; Stanley Armour Dunham and Madelyn Lee Payne Dunham, both from Kansas. His mother, Stanley Ann Dunham, had her focus on her education and career, and she left the young Barry Obama with her parents when she studied abroad. When his mother remarried to an Indonesian-born Muslim, Obama went to live in Indonesia with them from the age of 6 until 10. While there, he received Islamic instruction and attended mosque worship with his stepfather. While he did attend public school in Indonesia, and not a Madrassa (an Islamic religious school where instruction is given from the Koran), he did receive Islamic instruction, including study of the Koran.

While his campaign has officially denied this fact, in Obama’s own autobiography, he states (in reference to a discussion he had with the activist community organizer who brought him to Chicago that “In Indonesia, I had spent 2 years at a Muslim school, two years at a Catholic School”. Then adds “In the Muslim school, the teacher wrote to tell my mother that I made faces during Koranic studies.”

The Times interviewed Israella Darmawan, Obama’s first-grade teacher at the Catholic school. She told the newspaper “At that time, Barry was also praying in a Catholic way, but Barry was a Muslim”. Many other sources from his neighborhood and school confirm this, but I’m trying to be brief. Pick up the book; “Obama Nation” for many more details on this topic.

NEW YORK – An AP photo (below) that recently surfaced showing Barack Obama registered for school as an Indonesian citizen of the Muslim religion provides tangible evidence for some of the claims made by author Jerome Corsi in his best-selling book, ["The Obama Nation."](#)

"The Associated Press document provides additional evidence suggesting the Obama campaign's insistence that Obama was never trained in Islam and he never lived as a Muslim is not accurate," author and WND staff reporter Jerome R. Corsi said.

"Moreover, the document indicated that Obama may have been an Indonesian citizen when he lived there," Corsi continued. "This is an issue the Obama rebuttal fails to address at all, evidently conceding the accuracy of the claim."
